NAME: SMART SOLUTIONS FOR RAILWAYS

TEAM ID:PNT2022TMID48351

The screenshot displays the Visual Studio Code interface for a Django project named 'ssr-booking'. The Explorer sidebar on the left shows the project structure, including folders like '.idea', 'env', 'ticketbooking', 'users', and 'static', along with various Python files. The main editor window shows the 'urls.py' file in the 'users' directory, which contains Django URL routing code. The terminal window at the bottom shows the output of running 'python manage.py runserver', indicating that the development server is running successfully at http://127.0.0.1:8000/.

```
ticketbooking > users > urls.py > ...
1 from django.urls import path, re_path, reverse_lazy
2
3 from . import views
4
5
6 from django.contrib.auth.views import (
7     PasswordResetView,
8     PasswordResetDoneView,
9     PasswordResetConfirmView,
10    PasswordResetCompleteView
11 )
12
13 urlpatterns = [
14     path('', views.home, name='home'),
15     path('dashboard/', views.home, name='dashboard'),
16     path('login/', views.login_request, name='login'),
17     path('ticket-booing', views.booking, name='booking'),
18     path('register/', views.register, name='signup'),
19 ]
```

PROBLEMS OUTPUT DEBUG CONSOLE TERMINAL JUPYTER

System check identified no issues (0 silenced).
November 16, 2022 - 17:55:00
Django version 4.1.3, using settings 'ticketbooking.settings'
Starting development server at http://127.0.0.1:8000/
Quit the server with CTRL-BREAK.
